

- **Switching ON/OFF**

To switch the device ON or OFF, connect a buddy button to the OMNI 2 module in the On/Off Switch Jack.

The buddy button is not Connected to the CoMoveIT Smart. The buddy button is connected to the OMNI 2 module.

When the device is OFF, a press on the buddy button will switch the device ON.

When the device is ON, a press on the buddy button will switch the device OFF.
