

ATTESTATION OF COMPATIBILITY

Ottobock Wheelchairs 'and' CoMoveIT systems

Wheelchairs	Head-foot steering system
Ottobock JUVO Family (490E75=0_C)	CoMoveIT Smart (Any configuration)

This document confirms that the mentioned wheelchairs and the CoMoveIT Smart head-foot steering system in any kind of configuration, can be combined.
Both systems comply to the CE regulation and are CE certified.

The CoMoveIT Smart does not bring any change to the structural and functional integrity of the wheelchair. Both systems operate entirely within their originally defined intended use when combined.

The CoMoveIT Smart shall be installed to the wheelchairs by a CoMoveIT certified (trained) wheelchair retailer. The installation must be executed in accordance with the CoMoveIT installation instructions, and a test certificate must be recorded and provided to CoMoveIT.

To assure a correct interface, the Ottobock wheelchairs must be equipped with the following article codes in configuration:

Level	Code	Description
Must	EU053	R-Net/TEN° 120A Power module
Must	EU079	R-Net LED hand module
Or may	EU065	TEN° hand module, standard colour
Or may	EU066	TEN° hand module, colour selectable
Must	EU054	Omni2 (TEN° LCD module), including 9-Sub-D Interface
